ADULT OCCUPANT	82%
CHILD OCCUPANT	72%
PEDESTRIAN PROTECTION	48%
SAFETY ASSIST	56%

- Sportage **NQ5** was tested and evaluated by Latin NCAP in the end of November and beginning of December. Final results were announced in on Latin NCAP website on December 13<sup>th</sup>, 2022.
- Final Latin NCAP rating of Sportage NQ5 is **3-stars**, in line with rating objectives originally set for this model.
- NQ5 performed very well in all crash tests, but did not receive higher rating since ADAS was not tested (take rates not on required level), as Latin NCAP always tests only lowest spec available in CSA region.
- It's possible to expect that NQ5 could receive higher rating (4- or 5-stars) if the ADAS was standardized and tested by Latin NCAP.
- NQ5e (Slovakia) model was tested but rating can be also used for NQ5 (Korea) due to the similarity of the vehicle structure.
